

EMU Visual Design – Basic Styles

#pagewrap
Defines the global page width 90%—all other elements are inside the pagewrap

.table2_style
One of several table style classes—used to also help define the rest of the table

.tableAltRow
Highlights a row with light warm-gray

.tableHeader
Defines the typical table heading

.tableRowHead
Defines sections within a table

td
Is defined to have dashed border on left side

#pagehead
Defines the global site header

#navcontainer
Defines the global navigation—contains:
#navlist-unordered list

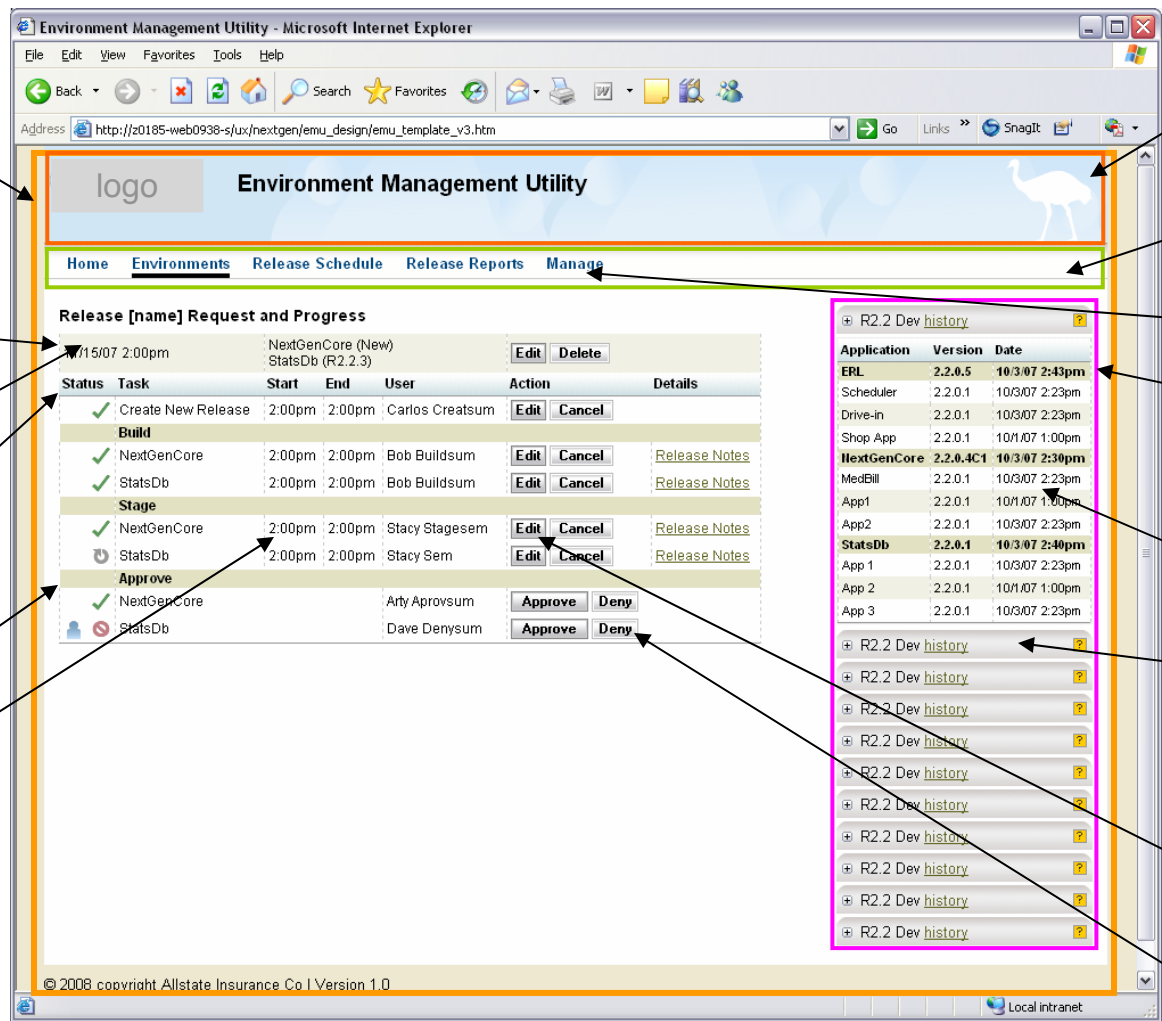

#rightside_col
Contains the items on the rightside—can be made to hide by defining in style "display: none;"

.table3_style
Defines a table that fits within right side column

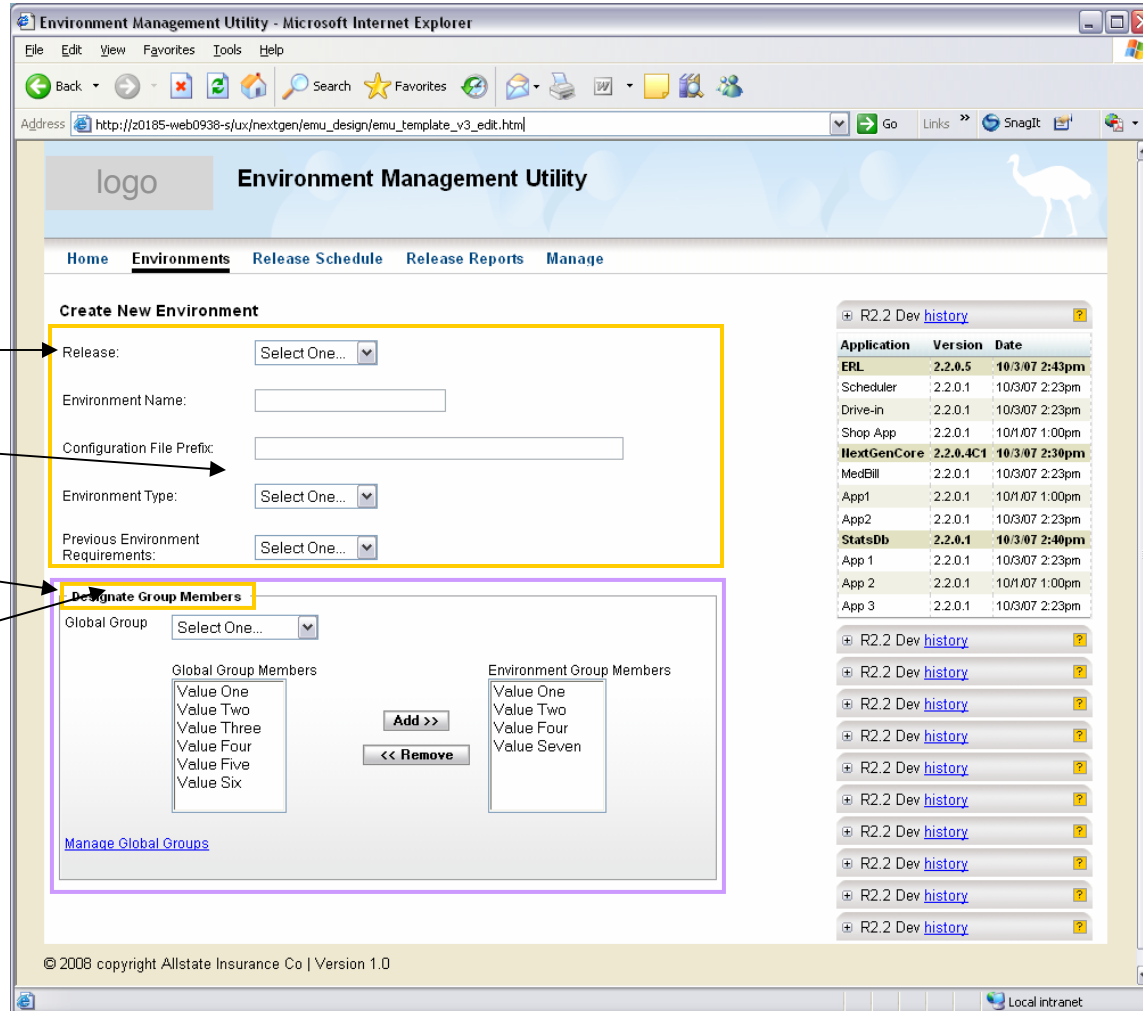

.widgetbar1
Creates the bar for the widget.—contains
.widget_left and
.widget_right

.primary_btn
Provides background and darker border

.secondary_btn
Provides background and lighter border
